1. DATE - TIME GROUP	2. LOCATION
4 September 1964 05/0100Z	Brookfield, Massachusetts
3. SOURCE Civilian	10. CONCLUSION INSUFFICIENT DATA FOR EVALUATION
4. NUMBER OF OBJECTS Three	
5. LENGTH OF OBSERVATION 2 Hours	11. BRIEF SUMMARY AND ANALYSIS UFO observed through BX by three girls. Looked like a bright red speck in the sky. Circled a lake, returned with another UFO and circled the lake again. Came back later with a third UFO. Disappeared faintly (?). Observed for two hours. COMMENTS: Three objects observed in September 1964, reported to the Air Force in letter form in May 1965. Too old to investigate. Sighting is characteristic of a misinterpretation of an Astro Body such as a star/planet if the motion is confined to a small area of the sky. Possible a/c activity included. Insufficient data for an evaluation.
6. TYPE OF OBSERVATION Ground-Visual (BX)	
7. COURSE Varied

Gentlemen:

On September 4, 1964 a UFO was spotted in Brookfield, Mass., above Lake Quaboag. Witnesses were: [redacted] and [redacted] of Pine Lane in Brookfield, Mass.; and myself ([redacted]).

The UFO (seen clearly through binoculars) was completely red, oval shaped, a ring around it and a pole coming from the top of it.

Without binoculars it looked only like a a bright red speck in the sky. It seemed to fly at high speed and after circling the lake a couple of times it returned with another UFO. After they circled a couple of times they later came back with a third, then seemed to disappear faintly.
